

This October set your reuse goal

Why reuse?

Reuse is about valuing our stuff, by using and reusing it for as long and as often as possible. This avoids the need to extract raw materials, manufacture and distribute new stuff, and avoids waste thereby cutting down on greenhouse gas emissions.

Reuse Month 2019

National Reuse Month 2019's aim was to inspire you and provide you with the skills and tools to reuse more **At Home, At Work, and At Play**. For example, you may have already reused by getting shoes resoled rather than replacing them, or borrowing books from the library. To cut down on waste and greenhouse gas emissions, we asked everyone to go further in October and beyond by prioritising repair, buying second hand and upcycled, borrowing, swapping and refilling.

Looking for ways to take simple action? Try the following:
